Fredrick,

I assume from the text of this message that two dead deer were found in the Scrubber Sludge Ponds area inside the fence. Is that correct?

Regards,

Harry

Report from Oregon Fish & Wildlife Subject:

Hi All,

I had a short telephone call with Jeremy Thompson with ODFW regarding the 2 deer at the scrubber sludge ponds. He thought the results from the necropsy would come early next week and it was his intention to call me first (just because he's familiar with me as a contact). It will be my intention to try and arrange for all of us to hear the results at the same time, so hopefully our calendars will be flexible enough.

Cheers, Fredrick
